# **Adult-Civic Groups Outdoor Organizations**

## **Adult-Civic Groups and Outdoor Organizations**

**Septic Tanks, Sinkholes and Summer Lawns** - What rural landowners can do to protect their wells and watersheds.

**Technology and Invention (A visit from a Medieval Townswoman)** - Imagine her astonishment when a 15<sup>th</sup> century townswoman finds herself "magic ked" into your modern setting! (Imagine their surprise when your groups finds a medieval character, in full costume, among them ). Explain to this lady the workings of modern technology for everyday things, find out from her what technology was in place in her day. Discuss some questions her visit brings up. This program is suitable for classroom, assemblies, and adult civic group meetings.

**Falcon!** - First, understand birds. Then understand BIRD EXTREME the falcon! Meet a real falcon!! Experience how birds of prey and people cooperate to hunt wild game by participating in a falconry hunt play. This can be done complete with medieval costumes. This program works well for mixed groups, scout programs and outdoor groups. (Not available February-April)

**Rain Barrel Workshop** - Save water! Join Jim Eckenrode, Blair County Conservation District Watershed Specialist, to make and take a rain barrel. Note: There may be a cost to cover materials. Call for more information.

**Holiday Wreaths** - Make and take a wreath made from "sustainable" greens and objects found in nature. There is a charge to cover the cost of the reusable frame.
